

NEW SDL PROGRAM

FRONTLINE[®] NOW OFFERS AN ALUMINUM SIMULATED DIVIDED LITE (SDL) OPTION FOR LEADING ENTRY DOOR MANUFACTURERS.

THE FRONTLINE ADVANTAGE

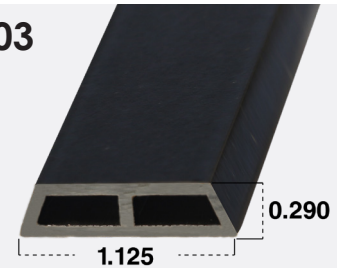

- Unlike vinyl or PVC bars, aluminum material provides minimal expansion and contraction.
- 3M[™] VHB[™] B45 Tape (standard) for superior adhesion.
- Tape applied is full width of grille bar to eliminate paint and stain bleed, as well as dirt and debris buildup, behind the grille.
- "Dado" (closed halving joint) assembly for a beautiful, finished look and simple assembly.
- End details to match flush-glazed and lip lite designs for high quality fit and finish.
- Simple end trim for a custom fit.
- AAMA 2605 Kynar paint is standard, available in White and Buff.
- Easy to custom finish; paintable and stainable.
- Sold in all standard rectangular patterns, with endless options for custom configurations, including radius and diamond.
- Choose a profile to match the manufacturer, or one of our many other aluminum profiles for a one-of-a-kind look.
- Shipped in kits (one interior and one exterior together) for convenience.
- We also have great wood SDL options!
