

ALUMIGRAIN STAINABLE ALUMINUM GRILLES

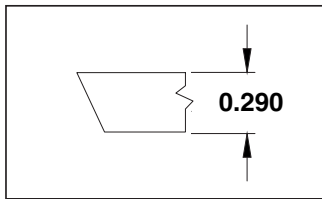

FRONTLINE® HAS THE STAINABLE GRILLE SOLUTION
FOR WOOD GRAINED FIBERGLASS DOORS

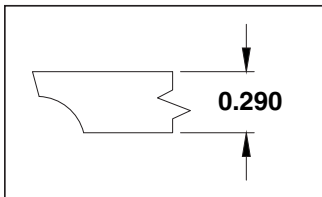

www.frontlinebldg.com | salesmedford@frontlinebldg.com | 715-748-2288

THE FRONTLINE® ADVANTAGE

- Aluminum substrate provides minimal expansion and contraction.
- Buff-colored wrap has woodgrain characteristics to match most fiberglass doors.
- Stainable and paintable.
- “Dado” (closed halving joint) assembly for a beautiful, finished look and simple assembly.
- 3M™ VHB™ Tape (standard) for superior adhesion.
- End details to match flush-glazed and lip lite designs for a high quality fit and finish.
- Shipped in kits (interior and exterior grille together), or as pre-notched, cut-to-fit bars that are bulk-packaged.
- Available in rectangular patterns and in endless options for custom configurations, including radius and diamond patterns.

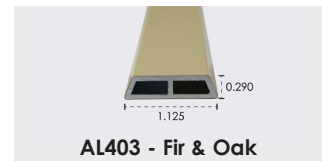

Angled to match flush-glazed frame.

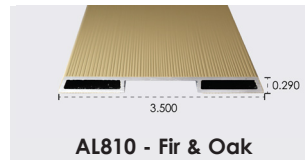

Coped to match lip lite frame.
